FIGURE 7

Diagram illustrating a network architecture. A central node 100a is connected to a box labeled "NIPR Comm 720". This box is further connected to three other boxes: "Satellite Dish 710", "740", and "760". The "740" box is connected to a dashed circle containing a node 320b. The "760" box is connected to a dashed circle containing a node 320c. The "710" box is connected to a dashed circle containing a node 320d. Dotted lines with arrows point from nodes 320b, 320c, and 320d towards a common point. Labels 100b, 100c, and 100d are also present near the dashed circles.
